

JEREMIAH KONNEH KAMARA

Morbi Highway, Hadala, Rajkot - 360006, India | +91 9909437231 | miahmara10@gmail.com | jeremara.github.io/JK-website

CAREER OBJECTIVE

Recent Bachelor of Technology graduate in Computer Engineering (Artificial Intelligence Specialization) from Marwadi University, with hands-on industry experience in mobile app development, data analysis and machine learning. Seeking a Teaching Assistant position within the Department of Computer Engineering to support faculty in delivering lab sessions, mentoring undergraduate students and reinforcing core programming, data structures and AI concepts, drawing on a strong academic record and applied project experience.

EDUCATION

Bachelor of Technology - Computer Engineering (AI Specialization) Sep 2022 - Feb 2026
Marwadi University, Rajkot, India | CGPA: 7.40

High School Diploma 2006 - 2019
St. Michael Catholic High School, Monrovia, Liberia

WORK EXPERIENCE

Mobile App Developer, Excelerate (Remote) Jan 2026 - Present
Dubai, UAE

- Developed cross-platform mobile applications using the Flutter framework and Dart programming language
- Implemented user interfaces in accordance with UI/UX design principles and integrated apps with APIs and backend services
- Performed debugging and testing; maintained weekly commits and version control using Git and GitHub

Data Analyst, Excelerate (Remote) Dec 2025 - Jan 2026
Dubai, UAE

- Performed data cleaning and preprocessing to ensure accuracy, consistency and usability of datasets
- Standardised data formats, resolved inconsistent values and created data dictionaries documenting fields and transformations
- Supported data visualisation and reporting to communicate insights clearly

Web Developer, WJDC Jan 2023 - Dec 2024
Rajkot, India

- Developed responsive UI and dynamic web pages using React.js, HTML, CSS and JavaScript
- Used Git/GitHub for version control across projects

ACADEMIC & PERSONAL PROJECTS

Miah AI Resume Ranker

- Built a Streamlit application integrated with Azure OpenAI to evaluate, rank and match resumes against job descriptions using large language models

Caption Generator

- Built a social-media caption generation tool using the Hugging Face API, Streamlit and Pillow to create captions from user-provided images

American Sign Language Letter Detection

- Developed a real-time hand-detection and recognition system for ASL letters using Python, OpenCV, cvzone and NumPy

JtechHome Website

- Built a responsive multi-service web application using HTML, CSS and JavaScript

TECHNICAL SKILLS

Languages & Tools: Python, Java, C/C++, JavaScript, SQL, HTML, CSS

Frameworks & Libraries: React, Node, Streamlit, Bootstrap, OpenCV, REST APIs

Other: MySQL, Git/GitHub, JSON, Object-Oriented Programming, Web Development

CERTIFICATIONS

- Data Analytics - Cisco (Jun 2024)
- Python - Coursera (Jul 2023)
- Design Thinking for Innovation - Coursera (Jul 2023)
- Google AI Essentials - Coursera (Feb 2025)
- AWS Academy Cloud Foundations - AWS Academy (Jul 2024)
- Cybersecurity - Cisco (Aug 2024)
- Deep Learning with TensorFlow - IBM (Nov 2023)

LANGUAGE SKILLS

English (Mother Tongue), Spanish (Basic - A1)

EXTRA-CURRICULAR INTERESTS

Football - approaches problem-solving with the same focus, planning and adaptability used on the field.
